

Opibus Pre-Order Terms & Conditions

Electric Off-road Vehicle Conversions

These Terms & Conditions are valid from 2019-09-23 and contains the only conditions and details regarding Opibus Pre-Order list for electric vehicle conversions, and will be available on (www.opibus.se). Opibus reserves the right to change these Terms & Conditions by notifying the client over email or a telephone conversation. It is the client's responsibility to keep updated with possible changes communicated by Opibus.

Pre-order details

When placing a Pre-Order, the client reserves a slot in the Pre-Order list. This slot entitles the client's vehicle a position in the production schedule and the exact position can be made available to the client upon request. Once Opibus has finalised the production schedules and delivery times for a certain planning period, the client will be informed either by email or a telephone conversation. The client has a 5 day window period from the time of notification, to either Accept or Decline the Final Order. Failure to do so may result in the production slot being offered to other clients without notification.

Information

At the point of Pre-Order you will be required to provide certain information, such as product specifications, address and billing information. You represent and warrant that all such information is accurate, and you shall ensure that such information is kept current. Opibus shall have no responsibility or liability for inaccurate information or information that later becomes outdated, and shall have no obligation to make efforts to determine the correct contact or shipping information.

Delivery

Upon accepting the client's Pre-Order, Opibus is obliged to provide a preliminary expected time to delivery. However, Opibus reserves the right to make amendments to this date during the whole Pre-Order period by communicating this to the client. Although Opibus will make efforts to fulfill this estimated time of delivery, the Buyer understands and agrees that there may be delays. An estimated time of delivery (ETD) is only an estimate, and hence is subject to change. Opibus does not represent or warrant that it will be able to deliver by the estimated date. As a result, in the event that a delay arises and the estimated delivery is not met, Opibus is not responsible for any damages that may occur due to the delay, nor shall it be obligated, except as set forth in these Terms & Conditions, to provide any discounts, refunds or credits due to any such delays.

Payment

The Pre-Order fee is USD1000.00 (One thousand US Dollars). Upon receipt of the Pre-Order fee, the client's slot in the production schedule is confirmed. The Pre-Order fee is deductible from the total order value, should the client place the Final Order.

Pre-Order Cancellation

Either Opibus, the client or both reserves the right to terminate the Pre- Order at any given point in time through a written notice. Termination of the Pre-Order automatically results in the client forfeiting their slot on the production schedule. The Pre-Order fee is fully refundable and will be paid back to the client as soon as possible if the client or Opibus decides to cancel the Pre-Order or if the client Decline the Final Order. Cancellation and Rights of Regret after Accepting the Final Order is covered in the Purchase Agreement.

These Terms & Conditions constitutes the entire understanding between Opibus and the client relating to Pre-order of Electric Vehicle Conversion and supersedes all prior written and oral agreements and understandings.
